

Global Cash Investment Policy

Policy Number: FP-FIN-202
Department Sponsor: Treasury
Last Updated: 12/15/2022

PURPOSE

This policy governs the selection, execution and management of cash investments. Hilton Team Members engaged in the investment of cash on behalf of Hilton Worldwide or any other related groups named herein must follow the guidelines outlined in this document.

POLICY SUMMARY

Hilton Worldwide has established a policy and process to ensure consistency, appropriateness and standardization in its approach to the investment of cash. The policy seeks to ensure best practice by establishing guidelines for the investment of cash belonging to Hilton Worldwide ("Hilton" or "Company"), its wholly-owned subsidiaries and centralized managed hotels.

Treasury is responsible for managing Hilton's global cash and liquidity portfolio and defining and enforcing the standards in this policy. Hilton Team Members worldwide are responsible for supporting that effort through compliance with this policy and are required to read and comply with all applicable details. Any Team Member found to be abusing this policy will be notified, along with his/her Manager and may be subject to disciplinary action. Any questions related to the information contained within this policy, or to any other cash investment-related topics, should be directed to Treasury.

BACKGROUND / SCOPE

Hilton Worldwide policies must be reviewed, maintained and made available to all applicable Team Members and contractors to promote compliance and accountability.

APPLICABILITY

Unless otherwise noted herein, this policy applies to all Hilton employees globally, acting on behalf of any corporate entities, owned and leased hotels, managed hotels, homeowners associations ("HOAs") or joint ventures. See Sections K, L and M for details.

EXCLUSIONS / EXCEPTIONS

No exclusions or exceptions unless outlined in this policy or approved in writing (email communication considered written consent) by the Treasurer.

POLICY DETAILS

A. Investment Objectives

Cash shall be invested with the following objectives (in order of priority):

- 1) Preservation of Capital – minimizing the risk of loss of principal
- 2) Accessibility of Cash – ensuring the operational availability of cash when needed
- 3) Avoidance of Idle Cash – minimizing uninvested balances
- 4) Yield – maximizing the return on principal invested

Cash investment decisions shall be made while reasonably balancing these objectives in order of priority. Treasury shall seek to maximize interest income through the avoidance of idle cash (3) and maximization of yield (4), subject to the constraints of preservation of capital (1) and accessibility of cash (2).

Where applicable, additional limits may apply to portfolios that are subject to certain contractual obligations.

Global Cash Investment Policy

Policy Number: FP-FIN-202
Department Sponsor: Treasury
Last Updated: 12/15/2022

B. Authority

Treasury is authorized to:

- Invest corporate, owned and leased hotel, U.S. managed JV, and U.S. managed hotel funds according to this policy and the approved instruments listed in Appendix A.
- Select HOA investment service providers and have ultimate approval of the HOA investment strategy proposed by the service provider.

International Directors of Finance (“DOFs”) are authorized to:

- Invest funds held outside of the U.S. and U.K. on behalf of Hilton’s corporate entities, owned and leased hotels, and wholly-owned subsidiaries according to this policy and in the instruments listed as *Approved* (Appendix B).
- Invest funds held outside of the U.S. on behalf of Hilton’s managed hotels and joint ventures according to the guidelines specified in the applicable agreement. In the absence of investment guidelines or ownership instruction, these funds will be managed according to this policy and the approved instruments listed as Appendix B.

C. Approved Instruments

See Appendices A and B for a listing of approved instruments and their respective limits.

Any instrument not listed as *Approved* (Appendix A or Appendix B) is deemed prohibited.

D. Prohibited Instruments

Direct Investment in the following instruments is prohibited:

- Asset-Backed Securities
- Auction Rate Securities
- Commodities
- Derivatives (Hilton may only enter into derivatives for hedging purposes)
- Enhanced Cash Funds
- Municipal Securities
- Mutual Funds that do not seek to maintain a NAV of \$1
- Mutual Funds that intend to impose redemption gates
- Mutual Funds that have a weighted average maturity (“WAM”) of more than 12 months
- Preferred stock and other equity securities
- Private placement issues, unregistered or Rule 144a issuances
- Variable Rate Demand Notes

Any instrument not listed as *Approved* (Appendix A or Appendix B) or *Prohibited* in this section is deemed prohibited.

Indirect Investment (via mutual fund or other investment vehicle) in the following instruments is prohibited:

- Commodities
- Derivatives
- Preferred stock and other equity securities

Any instrument not listed above as prohibited for **Indirect Investment** is deemed approved.

Global Cash Investment Policy

Policy Number: FP-FIN-202
Department Sponsor: Treasury
Last Updated: 12/15/2022

E. Credit Limits (Securities)	Any Short-Term Instrument (ie, with an initial maturity of one year or less) must be rated by <u>both</u> S&P and Moody's with ratings no worse than: ▪ A-1 at S&P ▪ P-1 at Moody's Any Long-Term Instrument (ie, with a maturity greater than one year at issuance¹) must be rated by <u>at least one</u>² of S&P and Moody's with ratings no worse than: ▪ AA at S&P ▪ Aa2 at Moody's Any Mutual Fund must be rated by <u>at least one</u> of S&P and Moody's with ratings no worse than: ▪ AAAf or AAAm at S&P ▪ Aaa at Moody's In the case of securities rated by both S&P and Moody's with split ratings, the lower rating shall apply.
F. Credit Limits (Banks)	Any bank holding cash or other forms of deposit must adhere to the Short-Term Instrument credit ratings in Section E. For the purpose of measuring Credit Limits, the ratings of the legal counterparty to the transaction shall apply. If the counterparty entity is not rated, the rating of the bank's parent institution shall apply. The Treasurer may authorize a Policy Exception granting a temporary or permanent waiver of the Credit Limit for a given bank on the basis of relationship or operational necessity. See Section P for exception details.
G. Bank Notional Limits	Total Hilton and wholly-owned subsidiary cash and investments held at any one bank (subject to Credit Limits) may not exceed: ▪ \$100m per Relationship Bank (see Appendix C for a list of Relationship Banks) ▪ \$20m per Non-Relationship Bank that meets the required Credit Limits (see Section F) ▪ \$5.0m per Non-Relationship Bank that does not meet the required Credit Limits but has a short-term rating of at least A-2/P-2 or has been granted a Credit Limit exception (see Section P) ▪ \$2.5m per Non-Relationship Bank that does not meet the required Credit Limits and has not been granted a Credit Limit exception For the purpose of measuring Notional Limits (for Corporate, Owned & Leased hotel and wholly-owned subsidiary cash), Bank Exposure shall be aggregated across all related entities (e.g., all domestic and foreign subsidiaries of a global bank) and all applicable investments (e.g., bank cash, term deposits, bank-issued commercial paper). The Treasurer may authorize a Policy Exception granting a temporary or permanent increase in the Notional Limit for a given bank on the basis of relationship or operational necessity. See Section P for exception details.
H. Tenor Limits	The maximum tenor of any term security is 364 days, as measured by time-to-maturity at purchase. The Treasurer may authorize a Policy Exception granting a temporary or permanent waiver. See Section P for exception details.

¹ A long-term corporate note may have an original tenor of greater than one year when issued; however, Hilton's policy prohibits investment until that security has no more than one year to maturity.

² A long-term note rated by both agencies must meet the minimum ratings for both.

Global Cash Investment Policy

Policy Number: FP-FIN-202
Department Sponsor: Treasury
Last Updated: 12/15/2022

See Appendices A and B for a listing of approved instruments and tenors.

I. Currency	Treasury Entities, listed in Appendix D, may hold cash and investments in non-functional currencies. All other entities should hold cash and investments in their functional currency but may hold up to \$250,000 of non-functional currency cash unless a higher amount is approved by Treasury. For further detail, see FP-FIN-205 Global Foreign Exchange Risk Management Policy.
J. Custody	All corporate security investments must be held in trust accounts in the company's name. Such accounts cannot allow the commingling of investments. Money Market Funds and Bank Issues maturing in one to twenty-one days may be kept with dealers or banks as determined by the Treasurer. All other cash investments will be in the custody of the designated "Master Custodian".
K. Owned and Leased Hotel Operating Funds	U.S. and U.K. Owned and leased hotel funds are to be concentrated with corporate funds, unless legal, owner lease agreements or lender restrictions (e.g., capital reserves) require the funds to be segregated. International owned and leased hotel funds that need to be held outside of the corporate portfolios (e.g., working capital needs, tax/repatriation issues, local government regulation) shall be managed according to this policy. In the event that a country's banking institutions do not meet this policy's credit criteria, funds may be placed with a bank that is approved in writing. See Section P for exception details.
L. Managed and Joint Venture Hotel Operating Funds	Investments maintained on behalf of management or joint venture contracts in the U.S. and U.K. will be managed according to the guidelines specified in the applicable agreement. In the absence of investment guidelines or ownership instruction, those funds will be managed according to this policy. Execution of investments on behalf of U.S. managed hotels must be coordinated through Treasury. International managed and joint venture funds held outside the corporate portfolios for working capital needs, tax/repatriation issues, local government regulation, or other factors shall be invested per the criteria in the applicable agreement. If no investment criteria are specified, then it is generally acceptable to invest those funds in an instrument that meets the first two investment objectives (see Section A), subject to Treasury's review. An investment instrument that violates one of the first two investment objectives, preservation of capital and accessibility of cash, is not acceptable. If banking criteria are not specified in the applicable agreement, then funds will be placed with a bank that meets this policy's credit criteria. If a country's banking institutions do not meet this policy's credit criteria, funds can be placed with a bank that is approved in writing. See Section P for exception details.
M. HOA Operating Funds	The investment of Hilton's HOA funds should be consistent with the principles outlined in this policy. Investments maintained on behalf of HOAs will be managed according to the guidelines specified in the HOA agreement. Treasury has ultimate authority to approve investments made by the HOA investment service provider.
N. Monitoring	Global Cash Investment Position Treasury's Liquidity and Capital Markets team shall report the global cash investment position via the Credit Exception report to the Treasurer on a quarterly basis. This report shall include cash balances by portfolio, currency, asset class (e.g., "money funds"), issuer (for individual securities) or manager (for funds), credit rating, maturity and yield. The report shall show total cash balances for Corporate, Owned & Leased hotel and wholly-owned subsidiary cash.
O. Limit Violations	The Treasurer must be notified of any violation of this policy immediately after it is discovered, including: ▪ Downgrade of the credit rating of a bank or security below required Credit Limits

Global Cash Investment Policy

Policy Number: FP-FIN-202
Department Sponsor: Treasury
Last Updated: 12/15/2022

- Limit violation due to staff action, whether intentional or unintentional

Any such violation must be remediated within one week. Remediation may include obtaining written approval for a Policy Exception as noted in Section P.

P. Policy Exceptions

The following Policy Exceptions are allowed:

Vice President within Treasury

- Temporary or permanent waiver in Credit Limit for a Bank, up to \$25 million equivalent
- Temporary or permanent increase in Notional Limit for a Bank, up to \$25 million equivalent
- Temporary or permanent increase in Notional Limit for an Issuer, up to \$25 million equivalent
- Temporary or permanent waiver in Credit Limit for an Issuer, up to \$25 million equivalent

Treasurer

- Temporary or permanent waiver in Credit Limit for a Bank, equal to or greater than \$25 million equivalent
- Temporary or permanent increase in Notional Limit for a Bank, equal to or greater than \$25 million equivalent
- Temporary or permanent increase in Notional Limit for an Issuer, equal to or greater than \$25 million equivalent
- Temporary or permanent waiver in Credit Limit for an Issuer, equal to or greater than \$25 million equivalent
- Temporary or permanent waiver in maximum tenor of term security of 364 days, as measured by time-to-maturity at purchase, equal to or greater than \$25 million equivalent
- Investments in prohibited securities up to 2.5% of the Total Portfolio.

All other Policy Exceptions require CFO approval.

See Appendix E for a list of exceptions approved by the Treasurer and/or CFO.

PROCESS FLOWS & DIAGRAMS

N/A

DEFINITIONS

Term / Acronym	Definition
Asset-Backed Securities (ABS)	Bonds that represent pools of loans, such as mortgage, home equity, credit card and auto loans. The most prevalent type of asset-backed securities are those that are backed by first-mortgage loans, called mortgage-backed securities or MBS, which are generally considered to be a separate asset class from ABS.
Auction Rate Securities	Floating-rate tax-exempt bonds in which the rate is periodically reset by a Dutch auction.

Global Cash Investment Policy

Policy Number: FP-FIN-202
Department Sponsor: Treasury
Last Updated: 12/15/2022

Cash Management Agreement	Agreement relating to Hilton's funds that is part of the Loan Agreements for Hilton's mortgage and mezzanine acquisition debt, if applicable.
Certificate of Deposit	Promissory note issued by a commercial bank that entitles the bearer to receive a fixed interest rate at a specified maturity. May be negotiated before maturity in the secondary market.
Commercial Paper	Short term, unsecured bond notes issued by a corporation or a bank to meet immediate short term needs for cash. Commercial paper maturities typically range from 2 to 270 days. Commercial paper is usually issued by corporations with high credit ratings and sold at a discount from face value.
Concentration or Disbursement Bank	Any banking institution which electronically collects all available funds from other banks into a single account and provides information on expected disbursements so that cash can be fully invested during the day and funding requirements can be assessed.
Direct Investment	Purchase of a security where the investor controls the purchase and sale of each security, and thus the composition, in their portfolio.
Diversified Money Market Mutual Funds	An open-end mutual fund which invests only in short term (one day to one year) corporate money market instruments such as commercial paper, repurchase agreements, variable rate instruments and bank instruments.
Enhanced Cash Funds	Enhanced cash funds may have significant holdings of traditional money market vehicles, such as CDs, Treasury bills and commercial paper. However, the remainder of the enhanced cash fund is invested in a variety of higher-yielding, longer-term securities and slightly lower-rated credits, including short duration corporate, mortgage and high-yield securities, and possibly emerging market and non-U.S. dollar denominated debt. They are regarded as slightly less liquid than money market investments.
Eurodollar Bank Issues	Dollar denominated deposits, such as negotiable CDs or time deposits, held outside of the U.S.
Federal Agency Securities	Securities issued by two types of entities – 1) Government Sponsored Enterprises (GSEs), usually federally-chartered but privately-owned corporations; and 2) Federal Government agencies which may issue or guarantee these bonds—to finance activities related to public purposes, such as increasing home ownership or providing agricultural assistance. Examples of GSEs are Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac). Examples of Federal Government agency securities are those issued by the Farmers Home Administration, General Services Administration, Small Business Administration, and U.S. Department of Housing and Urban Development.
HOA Funds	Funds provided by maintenance fees from timeshare unit owners and are used to pay for all management fees and operating expenses of the HOA throughout the year. These funds are held in HOA bank accounts managed by Hilton.
Indirect Investment	Purchase of shares in mutual funds, closed-end funds, or exchange-traded funds where the investor does not control the composition of the portfolio.
Long-term Corporate Debt	Debt securities issued by a corporation or a bank to raise money for a variety of purposes, such as building a new plant or purchasing equipment.

Global Cash Investment Policy

Department Sponsor: Treasury
Last Updated: 12/15/2022

Master Custodian	This refers to circumstances where a client has multiple investment managers and a single bank that takes responsibility for reconciling the client's records with those of each investment manager, relieving the client of this administrative burden.
Municipal Securities	Short- and long-term debt issued by state and local governments, their agencies, authorities and subdivisions.
Net Asset Value (NAV)	The total value of all the securities in the fund divided by the number of shares in the fund.
Non-U.S. Government Securities	Debt obligations backed by the full faith and credit of sovereign governments. These can include bills, notes, and bonds issued by any country other than the U.S.
Offshore Money Market Mutual Funds	An open-end mutual fund which invests primarily in short term (one day to one year) money market instruments issued by sovereign governments and companies based outside the U.S.
Other Bank Issues	Money market securities issued by banks, examples include certificates of deposit (CDs), time or term deposits and banker's acceptances.
Overnight Portfolio	Portfolio composed of investments that can be liquidated with 24 hour notice without penalty (i.e., money market mutual funds)
Relationship Bank	Banking institutions that are significant lenders of credit to the Company or are deemed to have a significant relationship with the Company. See Appendix C for a listing of relationship banks.
Repurchase Agreements (Repo)	A widely used source of financing by primary dealers, other securities firms, banking firms, and institutional investors, among others. A repo involves an agreement between a seller and a buyer, typically of U.S. government securities but increasingly involving other types of securities and financial assets as well, whereby the seller "sells" the securities to the buyer, with a simultaneous agreement to repurchase the securities at an agreed upon price at a future point in time. A reverse repurchase agreement is the flip side of the transaction, with the buyer "buying" the securities from the seller and simultaneously agreeing to resell them at a future point in time.
Term/Time Deposit	Deposits held for a specific term at commercial banks. The depositor receives an interest payment at the end of the term. Early withdrawals are not permitted without a penalty.
Term Portfolio	Portfolio containing investments that have specified maturity dates, typically between two weeks and 364 days.
Treasury Money Market Mutual Funds	An open-end mutual fund which invests only in U.S. Treasury securities and repurchase agreements backed by U.S. Treasury securities.
U.S. Treasury Securities	Debt obligations backed by the full faith and credit of the U.S. government. These include bills, notes, bonds, TIPS, and Savings Bonds. Treasury bills are short-term instruments with maturities of no more than one year. Treasury notes are intermediate- to long-term investments, typically issued in maturities of two, three, five, seven and ten years. Treasury bonds cover terms of more than ten years.
Variable Rate Demand Notes (VRDNs)	A bond which bears interest at a variable rate that is established at specified intervals (e.g., flexible, daily, weekly, monthly or annually) and contains a put option permitting the bondholder to tender the bond when a new interest

Global Cash Investment Policy

Policy Number: FP-FIN-202
Department Sponsor: Treasury
Last Updated: 12/15/2022

rate is established. VRDNs are also referred to as VRDOs (O=Obligations), VRDBs (B=Bonds) or low floaters.

ROLES AND RESPONSIBILITIES

Entity / Personnel	Responsibilities
Treasurer	- Reviews and approves policy exceptions equal to or greater than \$25 million. See Section P for exception details. - Reviews and approves any term investment of more than 270 days.
Vice President within Treasury	- Reviews and approves any policy exceptions up to \$25 million. See Section P for exception details. - Reviews and approves any term investment of a maturity between 180 and 270 days.
Liquidity and Capital Markets Group	- Manages Global Liquidity Forecast. - Monitors global cash investments portfolio and recommends actions to Treasurer/Assistant Treasurer. - Executes trades for U.S. Corporate Term and Overnight Portfolio. - Manages Global Cash Investment Position Report.
Memphis Treasury Group	- Executes Overnight Portfolio for pledged and US managed hotel cash. - Determines available cash for investment for U.S. Overnight Portfolios.
Watford Treasury Group	- Manages UK Investment Portfolio. - Executes trades for UK Investment Portfolio.
Liquidity and Capital Markets Team	- Please direct any questions regarding the interpretation or implementation of this policy to the listed email below. - TreasuryFrontOffice@hilton.com
CFO	Reviews and approves all other policy exceptions
