POLICY NUMBER: **FP-FIN-203**

GLOBAL BANK ACCOUNT POLICY

Cash is among the group of assets vulnerable to unauthorized use or theft. This policy is formulated to provide guidance to help prevent unauthorized use and access to bank accounts holding corporate and managed cash. The selection of banking providers, the use of bank accounts, and the provision of banking services shall align with the objectives of leveraging key financial relationships, ensuring quality of services provided, and minimizing total banking costs. In addition, this policy shall cover cash balance reporting as well as bank account portfolio review and audit.

Adherence to this policy is essential to the protection of cash assets, maintenance of financial controls, and the preservation of Hilton's global banking relationships. This policy must be reviewed, maintained, and made available to all team members to promote compliance and accountability governing cash assets and bank accounts.

POLICY STATEMENT

The authority to open and close bank accounts with banks or other financial institutions is delegated to specific individuals by the Board of Directors of Hilton and its subsidiaries. In addition, the authority to change signers is granted by the Board to certain officers of the organization and their designees. For managed hotel operations, this authority may be designated by the applicable management contract.

The Treasury Department is responsible for maintaining custody of Hilton's global cash and cash equivalent assets for corporate, owned & leased entities, joint venture, and managed hotel operations where applicable. As such, Treasury has the final responsibility to select and approve Hilton's banking and financial institution partners, as well as the type of bank services.

Loans, overdraft facilities, or other forms of lending/credit arrangements shall be negotiated centrally and exclusively by Treasury to protect Hilton's overall credit standing.

This policy must be reviewed, maintained, and made available to all applicable Team Members to promote compliance and accountability governing bank accounts and cash assets.

APPLICABILITY

This policy applies globally to all Hilton Team Members acting on behalf of any corporate or corporate subsidiary entity, owned and leased hotels, joint venture hotels, and Hilton managed hotels. Exceptions where applicable in certain jurisdictions or required by local law should be communicated to the Treasury Department. Application of this policy to bank accounts of joint venture and managed hotels may be further subject to specific requirements of the applicable management contract.

EXCLUSIONS/EXCEPTIONS

No exclusions or exceptions unless outlined in this policy or approved by the VP, Global Treasury Operations.

BANKING RELATIONS & SERVICES

Banking Relations

Hilton Treasury shall have final responsibility for the selection and approval of global banking services providers for Hilton corporate, owned, & leased hotels. This authority also includes joint venture and management contract hotels in the US. Bank accounts should be opened with Hilton's key banking partners for which a list is attached to this policy in Appendix A. If no key banking institution is available to support required banking services, the VP of Global Treasury Operations or the Director of Regional Treasury Operations must approve selection of the non-key banking partner.

At all times, US hotel management contract provisions governing selection of banking institutions will be followed for bank accounts opened and/or operated on behalf of joint venture or managed hotels. In cases where bank selection authority rests with the Hilton managing entity, the Director of Regional Treasury Operations or above will approve the applicable banking institution.

Guidelines for Treasury approval of Non-US management contract or joint venture banks will be provided in future releases of this policy.

Banking Services

The Director of Regional Treasury or above shall have the final responsibility for the selection and approval of the following banking services:

- Bank accounts
- Cash investments
- Overdraft and credit lines
- Foreign exchange services
- Other related banking services

BANK ACCOUNT MANAGEMENT

Hilton generally seeks to limit the number of bank accounts it holds globally to mitigate multiple forms of risk, financial, and operational cost. In this regard, Treasury shall approve opening of bank accounts only when deemed operationally necessary and appropriate; and with the preferred banking services provider. Bank accounts will be established to support operational requirements, compliance with legal or tax regulation, or such other business purpose as determined by Treasury.

Account Opening & Closing

The Director of Regional Treasury Operations or above will be responsible for approving all requests for bank account opening and closing, including time deposits or any other form of short-term investments for Hilton corporate, owned, and leased hotels globally. In the US, this authority also includes bank accounts of joint venture and management contract hotels. All requests for new bank accounts should be supported by a completed Hilton Treasury Bank Account Request Form, attached to this policy as Appendix B, duly signed by a requestor and approved by a corporate or operations Director of Finance or above. Upon approval,

- In the US and UK, the Treasury Department shall communicate directly with the bank to either open or close bank accounts.
- For Non-US and Non-UK bank accounts, the authority to communicate with the bank is delegated to the corporate or operations Director of Finance responsible for the bank account.

Guidelines for Treasury approval of Non-US joint venture and managed hotel bank accounts will be provided in future releases of this policy.

Signatories

All bank account signatories shall be established in accordance with the applicable Board of Director resolution and the provisions of a hotel management agreement. The following guidance shall be followed regarding signatories on Hilton operated bank accounts:

US Corporate and Hotel Bank Accounts

US Hilton corporate authorized signatories will be setup on all corporate and hotel bank accounts unless otherwise prescribed in the applicable management contract or other legal agreement.

Non-US Corporate Bank Accounts

Non-US Hilton corporate authorized signatories will include the authorized officers of the legal entity which owns the bank account or their designees. In addition, a Director of Regional Treasury Operations or above may be included as an authorized signatory at the discretion of the Treasury Department.

Non-US Owned, Leased, Joint Venture, and Managed Hotel Bank Accounts

Authorized signatories are restricted to manager level or above and must be approved by the applicable corporate or operations Director of Finance. Following is a sample list of individuals with authority to be setup as a signatory:

- General Manager
- Director of Operations
- Director of Finance or Finance Manager
- Assistant Director of Finance or Assistant Finance Manager

If the positions listed above do not exist, alternative positions may be selected as authorized signatories such as the Manager or Director of HR, Revenue, F&B, Sales, Business Development, Front Office Manager, or comparable position as recommended by Operations Finance management. In all cases, the provisions of the management contract regarding bank account management must be followed.

A minimum of four (4) bank account signatories is recommended on the bank account to avoid disruption in business operations while maintaining the appropriate cash checks and balances. In cases where dual signatories are required, one signatory should be from the Finance Department. The Director of Regional Treasury Operations or above may also be included as an authorized signatory on Owned and Leased hotel bank accounts as directed by the Treasury department.

Hilton Team Members who leave Hilton's employment or who no longer require signatory authority should be immediately removed as a signatory on the bank account. For Non-US bank accounts, the corporate or operations Director of Finance with responsibility for the bank account must maintain a list of all bank accounts held and the authorized signatories associated with each account. The list should be stored in a secured location to prevent unauthorized access. All records and documentation related to bank account adding, removing, and changing bank account signatories shall be retained according to Hilton's Record Management Policy, HWI-LG-010.

Questions and exceptions regarding authorized signatories should be submitted to the applicable Director of Regional Treasury Operations for clarification or approval.

Procedures for reporting ongoing changes to bank account signatories to the applicable Regional Treasury office will be communicated in future releases of this policy.

Bank Account Access

US, UK, and Ireland Bank Accounts

The Director of Regional Treasury Operations or above shall have final responsibility for approval of access to Hilton's bank account portfolio for corporate, owned, leased, joint venture, and managed hotel operations including:

- Registered users of online banking platforms
- Authority to obtain balances or other information directly from the bank

In the US, hotel operating units will not be setup with bank web access unless alternative sources for obtaining bank account activity are not available, or there is a clear business need which requires such access. Corporate offices and hotel operating units should contact Regional Treasury to coordinate setup of web reporting or other balance reporting services. Corporate and hotel entities should periodically review their online banking platforms and notify Treasury of any required changes.

Non US, UK, and Ireland Bank Accounts

Approval for access to bank accounts including authority to request balance information directly from the bank and registered users of online banking platforms is currently delegated to the corporate or operations Director of Finance with responsibility for the bank account. All access rights should be established in accordance with the applicable Board of Directors resolution governing the business entity and any provisions of the management contract related to banking.

Additional policies for administration of bank web users will be provided in future releases of this policy.

BANK BALANCE REPORTING

Treasury is responsible for tracking and reporting Hilton's global cash position according to the actual balances held with the financial institution. This responsibility includes all cash and cash equivalents held in corporate, owned, leased, and consolidated joint venture bank accounts and investment accounts.

Treasury shall employ means to obtain balance and transaction information directly from banks and financial institutions whenever possible and practical. In cases where Treasury does not maintain direct access, Treasury may request bank balance reporting by the corporate or operations Director of Finance with responsibility for the bank account.

BANK ACCOUNT AUDIT

Treasury shall conduct audits of Hilton's global bank account portfolio and all bank account signatories. This review applies to all corporate, owned, leased, joint venture, and managed bank accounts where Hilton Team Members and/or hotel operations staff have signatory authority or operational responsibility for the bank accounts.

At least annually, Treasury shall distribute a current list of active bank accounts to Corporate and Operations Finance teams for validation. Finance Team Members with responsibility for the bank accounts shall provide Treasury with any corrections to the list.

LOANS, OVERDRAFTS, AND OTHER FACILITIES

No hotel or corporate office outside of Treasury is permitted to negotiate any new loans, overdraft facilities, or similar financial arrangements with a bank or financial services provider. Conversely, no hotel or corporate office is permitted to negotiate, approve, or otherwise extend credit or lending arrangements to any third party without prior written approval of the SVP, Treasurer of Hilton.

OTHER MATTERS

Excess Funds – Hilton Corporate, Owned, and Leased Bank Accounts

The corporate or operations Director of Finance with responsibility for the bank account must work with the applicable Director of Regional Treasury Operations on a regular basis to minimize the amount of funds maintained for operating purposes locally. Any excess funds should either be remitted to Hilton corporate as directed by the Director of Regional Treasury Operations or placed on short term deposit with an approved bank in compliance with the Global Cash Investment Policy (FP-FIN-202). Specific actions for transfer of excess funds to Hilton should be coordinated in advance with the Director of Regional Treasury Operations.

Bank Account Service Fees

Bank account fees or tariffs should be obtained from the bank in writing and reviewed periodically to ensure they are calculated and charged accurately. Unusual or unresolved matters should be brought to the attention of the Director of Regional Treasury Operations for further guidance.
