POLICY NUMBER: **HWI-HSM-001**

BUSINESS TRAVEL AND EXPENSE REIMBURSEMENT POLICY

This policy establishes the procedures and guidelines for the minimum standards all Team Members must follow when they are required to perform business related travel; incur, review, or seek reimbursement of business related expenses on behalf of or for the benefit of Hilton and its direct or indirect subsidiaries ("Hilton or HWI"). Team Members are expected to use good judgment in line with our core principles regarding all expenses incurred by the Team Member while conducting company business. This policy serves to ensure Hilton reimburses all Team Members in an efficient manner while maximizing our ability to negotiate the best terms with our travel partners and effectively manage and minimize our overall travel and other business expenses.

Hilton assumes no responsibility to reimburse a Team Member for expenses that are NOT in compliance with this policy.

POLICY STATEMENT

All Team Members are expected to travel and conduct business utilizing the safest and most economical means available. Team Members are expected to utilize the preferred airlines, rental car companies, car services, rail, ferry or other travel providers. Team Members will be reimbursed for actual costs authorized and incurred on the company's behalf while the Team Member is engaged in company business. Such expenses must be reasonable in the circumstances, necessary, and incidental to the performance of the company business involved. Extravagances and non-business related expenses will not be reimbursed.

APPLICABILITY

This policy is applicable to all Hilton Team Members, with an active employee identification number. Contractors/ consultants reference Section F for guidance.

EXCLUSIONS/EXCEPTIONS

All Team Members are expected to be in compliance with the policy. Any and all exceptions require advance documented approval of their SVP or higher.

HILTON CORPORATE CARD

Hilton uses the American Express Corporate Card (AECC), and this is the required payment method for travel, entertainment, and other business expenses. The AECC is to be used for travel related expenses (airfares, car rentals, hotel charges, etc.) whenever accepted as this is one of the primary tools Hilton has to negotiate supplier discounts and is needed for internal reporting purposes of our travel and expense programs. If the AECC is not accepted or is not available in certain jurisdictions for Team Members, the Team Member may use his/her own credit card or cash.

All Team Members, with an active employee identification number, who are expected to travel regularly will be eligible for an AECC on their start date. If an existing Team Member, with an active employee identification number, does not have an AECC issued and travels two times or more per annum, or spends more than \$5,000 USD (or equivalent) on travel or entertainment annually, the Team Member is required to obtain an AECC for business travel purposes. Enrollment forms can be found on the Lobby in the Business Travel and Expense Resources pages. Please reference the country where your HR file resides (i.e., United States, United Kingdom, etc.).

Team Members are responsible for all charges incurred on their AECC. While the company has provided an efficient, online expense-reporting tool to Team Members in the United States, United Kingdom and Ireland to help ensure timely reimbursement of business expenses that are directly paid to American Express or the Team Member, the Team Member is ultimately responsible for ensuring timely payment of charges on their AECC. Not submitting business expenses in a timely manner will result in late fees, which are the full responsibility of the Team Member (and will not be reimbursed).

Please remember the receipt and use of the AECC is a convenience to the Team Member and this program is provided by Hilton to minimize any undue burden that travel or other reimbursable expenses may otherwise cause the Team Member. Abuse of or non-compliance with this policy will result in loss of the AECC privileges and may result in disciplinary action.

The AECC is intended to be used solely for business purposes and personal charges should be avoided at all times; however, should personal charges be incurred on the card they will be the financial responsibility of the Team Member. The Team Member may opt to participate in any of the points programs offered by American Express through the AECC program and all points earned through the use of the card belong to the Team Member. The Team Member is responsible for the annual fee for any points program, which is not reimbursable. Failure to pay for the participation in this program may result in the loss of any and all points earned and additional fees.

The AECC is for use by the Team Member during their term of employment and must be returned to their supervisor or Human Resources at such time that the Team Member leaves the company, or otherwise instructed to do so. Once received, the account will be closed and the card will be destroyed. Any outstanding balances or reimbursements to the Team Member are expected to be reported through the online expense-reporting tool, or local method of filing expense reports, no later than the last day of employment. To the extent any personal charges remain on the card, these amounts will be deducted from the Team Member's final payroll check to the extent permitted under local law.

Upon termination of employment, the Team Member's AECC account will be promptly cancelled.

EXPENSE REPORTING

Online Expense Reporting (United States, United Kingdom, Ireland ONLY):

All Team Members working in the United States, United Kingdom, and Ireland are expected to file expense reports in a timely manner via the online expense-reporting tool. Team Members are expected to complete training on this tool within thirty (30) days of hire or issuance of the AECC. Training manuals are located in the Business Travel and Expense Resources pages on the Lobby and within Hilton University (HU). Please reference the country where your HR file resides (i.e., United States, United Kingdom, etc.).

This web-based tool is accessible via the internet and Team Members can complete expense reports anywhere they have internet access. The expense reporting system will settle approved expenses to American Express on behalf of the Team Member; reimburse Team Members via direct deposit; or reimbursed amounts can be designated via the tool to be paid directly to the Team Member's AECC (e.g., for non-reimbursable transactions). Original receipts are not required (but should be maintained for future/personal reference) for Team Member AECC transactions, unless required by the local taxing authority.

All original receipts are required for all other Team Members. Receipt requirements are detailed on the Business Travel and Expense Resources pages within the Lobby.

Team Members are expected to file expense reports as promptly as is practical after travel or incurrence of a business expense, such as an advance booking of airfare. Hilton will make payments by country to American Express weekly via a consolidated payment of all amounts reported by Team Members and properly approved through the online expense-reporting tool. Reporting expenses in a timely manner through the online expense reporting tool is required. Adequate time for your approver to review and approve the report as well as allow Accounts Payable to process the report (which is defined as a minimum of five days prior to the payment date shown on your American Express monthly bill) may result in late fees being assessed by American Express. These fees, as noted above, will be the responsibility of the Team Member and are NOT reimbursable by Hilton.

Manual Expense Reporting (All other Countries):

Manual expense reporting is permitted only in those countries in which the Hilton online expense-reporting tool is not available. Refer to FP-OPSFIN-140 – Expense Controls for Manual Expense Reports for guidance.

All original receipts are required for all other Team Members. Receipt requirements are detailed on the Business Travel and Expense Resources pages within the Lobby.

Team Members are expected to file expense reports as promptly as is practical after travel or incurrence of a business expense, such as an advance booking of airfare. Hilton will make payments by country to American Express weekly via a consolidated payment of all amounts reported by Team Members and properly approved through their local reporting process. Reporting expenses in a timely manner through the online expense reporting tool is required. Adequate time for your approver to review and approve the report as well as allow Accounts Payable to process the report (which is defined as a minimum of five days prior to the payment date shown on your American Express monthly bill) may result in late fees being assessed by American Express. These fees, as noted above, will be the responsibility of the Team Member and are NOT reimbursable by Hilton.

Expense Reporting (All Countries):

For trips in which expenses are incurred in multiple currencies, all amounts should be converted to US dollars, or the appropriate local currency. Foreign exchange losses need to be supported by valid receipts with the calculation of the loss duly shown. All expense reports over 90 days will require approval of the CFO or his/her designee and Hilton will not be responsible for reimbursement of any expenses over six months old.

Additional guidance relating to the expense reporting tool and specific types of reimbursement is described throughout the remainder of this policy.

EXPENSE REPORTING (CONT.)

Out-of-Pocket Reimbursement:

Cash, or personal credit cards ("out-of-pocket" payment sources), shall only be used on occasions when the AECC is not accepted (e.g., taxicabs, tips, etc.) or the Team Member has not been issued an AECC. A clearly documented business purpose / justification must accompany all expense submissions. Original receipts must be submitted with your expense report for all out-of-pocket business-related travel expenses (greater than \$75 for US Team Members and all receipts for all other Team Members). Receipt documentation for various expenses must include the following according to type of expenditure:

- Supplier name
- Location
- Date
- Amount
- Date of departure and return
- Destination
- Business purpose / travel agency invoice / itinerary
- Original passenger ticket or boarding pass
- Itemized hotel bill
- Car rental receipt
- Attendee detail information

For international expenses processed as out-of-pocket on the online expense reporting tool, an automated conversion program will convert your expenses based on input of the foreign currency. The user has the ability to input the exchange rate experienced at the time of conversion, or utilize the stored rate loaded in the system.

Approvals:

The approving supervisor is responsible for ensuring the reasonableness, validity, completeness, business purpose, and propriety of expenditures.

In the event the expense report has items included that are not in compliance with company policy, the report should be returned to the Team Member by his / her supervisor for further explanation or documentation.

Delegation of approval authority during out-of-office periods, holidays, or extended absences must be assigned to a Team Member of equal or greater seniority.

NOTE that any expense item, which is not fully explained and/or supported by the required receipts, is subject to rejection, regardless of the amount / value.

TRAVEL ARRANGEMENTS

All travel must be booked through the designated online booking tool, or approved travel agency using the lowest available options with HWI’s preferred airlines, rental cars, car services, rail, ferry, or other travel providers unless not available. Travel program details can be found on the Business Travel and Expense Resources pages within the Lobby. Travel arrangements booked through non-Hilton sponsored travel agencies may not be reimbursable.

If an online travel and/or expense tool has been deployed in your country, then that tool is the required method of booking reservations. All changes and/or emergency travel arrangements must be booked through the approved travel agency and/or 24-hour emergency service number to ensure employee location is known at all times and more favourable rates are obtained.

Reservations must be booked as far in advance as possible in order to increase opportunity for obtaining reduced fares and accepting the lowest available fare at the time of booking. Bookings are mandated to be booked at a minimum of 7 days in advance; and whenever possible more than 14 days in advance in order to insure the lowest possible fare.

For meetings of very short duration, including Same Day or One Day Trips, conference calls or video conferences are preferred and strongly encouraged.

AIR TRAVEL

The following air travel guidelines apply to all Team Members, except for any existing employment agreements that may contain specific provisions regarding travel that shall supersede these arrangements.

	Economy Class ¹	Business Class ¹
SVP and Above	≤3 hr	≥3 hr
VP’s and Above	≤6 hr	≥6 hr and Internat’l
All Other Team Members	Always	

1 Flight class designations are determined by the length of travel, which is defined as the longest segment flight time for the entire flight / itinerary purchased. In the case of multiple-segment trips with connections, only the longest segment flight time shall be used to determine whether the entire trip qualifies for an upgrade to business class. For the avoidance of doubt, a connecting flight that is made up of two flights with each segment being 3.5 hours (7 hours total flight time but maximum flight segment of 3.5 hours) does NOT qualify for an upgrade to business class for a VP level employee

ADDITIONAL CONSIDERATIONS / REQUIREMENTS

- Internal meetings of 10 or more participants that might otherwise qualify for the higher-class travel under this policy requires prior approval of the respective Executive Committee member to book in the higher- class of service.
- “Open” return tickets must not be purchased, as these typically are most expensive. Use of non-refundable tickets that charge a fee for changes must be used whenever possible. Changes to issued tickets should be avoided to the extent possible and only with good reason.
- Travelers will not designate the airline and the lowest available airfare is to be accepted at time of booking. The travel agencies / booking tools are responsible for presenting the lowest fare via our discount programs with air carriers that allow for departure and arrival during preferred times. Our travel agencies / booking tools have been instructed to review all available flights within a 6 hour period (3 hours pre and 3 hours post the requested departure time) in order to determine the lowest available fare.
- In those instances where an aircraft has only two cabins and the policy permits travel is Business Class, or Business Class is sold out, then the Team Member must fly in economy / coach.
- Although Team Members retain frequent flyer awards received as a result of travel on company business, air travel selection must be made independent of mileage program membership. Team Members are strongly encouraged to use mileage awards received from business travel for upgrades.
- Any benefit (current or future) deemed as “in-kind” to Team Members by local regulatory bodies is the sole responsibility of the Team Member.
- Unused airline tickets shall be returned to the travel agency. These tickets represent an asset to the company and should be treated as such. Unused tickets should never be returned with the related expense report. If an electronic ticket was issued, cancellation of the travel will suffice.

COMPETITIVE RESTAURANT REVIEWS

Expense account requests for reimbursement of competitive restaurant reviews will be reimbursed only if incurred by Team Members authorized to do so and when accompanied by the required written evaluations. Approving managers are expected to ensure compliance with this requirement.

CONTRACTOR – CONSULTANT TRAVEL

All contractor / consultant travel shall follow this policy. If travel services are required for a contractor / consultant, any Team Member can utilize the “guest travel” feature in the online booking tool. All expenses incurred on behalf of Hilton should be processed via a traditional Excel based expense report or by an invoice and submitted to the relevant Business / Finance Owner for review / approval prior to delivery to Accounts Payable (e.g., Memphis SSC for US, Glasgow FASST for UK, etc.) for payment.

COMPLIANCE MONITORING

Monitoring and reporting on all aspects of Team Member travel occurs on a monthly basis and identification of out of policy behavior is recorded. Any Team Member found to be non-compliant and/or abusing this policy will be notified, along with their Manager. Repeated violations / abuse will be reported to Executive Management, and the Team Member will be subject to disciplinary action.

EMERGENCY MEDICAL & EVACUATION ASSISTANCE

Global Guardian: Team Members travelling on business outside their home country are covered by Hilton’s Travel Safety and Security Provider, Global Guardian. Before you leave on your trip, ensure you have downloaded the Global Guardian app and completed the Travel Safety eLearning course. You will find app download instructions, eLearning links, FAQs and other resources in the [Global Guardian Lobby page](#). Once you have on-boarded successfully with Global Guardian, you can access a wide range of travel resources including country profiles, safety, security and medical information in the [Global Guardian Traveler Portal](#). Ensure all your travel profile information is correct within the portal so Global Guardian are best positioned to help you in a travel emergency

ENTERTAINMENT

Team Members will be reimbursed for reasonable expenses incurred when entertaining persons or firms with whom the Company maintains or may establish a business relationship, when such entertainment promotes successful working relationships and goodwill. Guest name(s), business affiliation(s), and the purpose of the entertainment must be shown within the expense report submission. The names of Company personnel included in group entertainment must also be shown. Team Members should use good judgement in allocating funds to be expended on business entertainment. Any entertainment of government officials must be in accordance with our Anti-Corruption policy.

Where possible, entertainment meals should be taken in Company hotels. Expenditures for entertaining colleagues within the Company are generally not reimbursable. Exceptions to this policy are meal charges incurred in connection with visits by out-of-town personnel or for appropriate, occasional departmental activities or events which have a legitimate business purpose.

ETHICS HOTLINE

To encourage Team Members to promptly report actual or suspected violations of this Policy including concerns regarding accounting, internal accounting controls, or auditing matters, or other improper or unlawful conduct, the Company has retained a third-party service (the “Ethics Hotline”) to assist the Company in compiling and investigating these reports. The Ethics Hotline may be accessed in the United States at any time by calling 1 (877) 662-5825 or by visiting www.hiltonhotline.com on the Internet.

For Team Members located outside of the United States, please contact your local Human Resources representative for assistance.

HOTEL CHARGES

Owned and Leased hotels near corporate offices are required to be utilized at all times. Hilton Portfolio Brands are required to be utilized at all times, unless essential for your position or a Hilton-branded hotel is not present in the area.

- If travel is solely for the benefit of the hotel – Room, taxes, food, beverage, phone, Internet access, dry cleaning / laundry will be complimentary to the Team Member.
- If travel is not for the specific benefit of the hotel – Room rate charged will be 25% off of the BAR (Best Available Rate Plan); no other discounts apply. Owned and Managed properties are required to participate in this program; however, sold out situations may occur and an alternate rate should be used, or an alternate property selected. Franchise hotels are not mandated to participate in this program, but rather may opt in/out.

In order to take full advantage of pre-negotiated rates and available discounts / rebates, reservations are required to be booked using the online booking tool (AXO), local American Express Travel Agency, or the existing travel booking process used.

LAUNDRY / VALET

Laundry, dry cleaning, and pressing (ironing) are reimbursable only when the business trip exceeds three nights.

LIMO / BLACK CAR / SEDAN SERVICE

VP's and above may use town car services as needed. Corporate preferred supplier(s) should be used when possible via the online booking tool. Town / black car services may also be used if 3 or more Team Members are traveling together.

MEALS

The actual cost of meals (Breakfast, Lunch, and Dinner as applicable) away from home is reimbursable. Whenever possible, meals should be taken in owned and operated hotels. Meal charges or gratuities deemed to be excessive (outside the norm of the venue and region) will not be reimbursed. (Note: Please refer to the Business Travel and Expense Resources pages within the Lobby for meal guidelines in major locations globally.)

Vacation/personal/leisure night stays, Team Members may continue to receive and use their full Hilton Honors benefits. However, Team Members on official company business may not use Hilton Honors F&B vouchers or coupons to pay for all or part of their F&B charges on property (including, but not limited to, breakfast, cocktails, and/or appetizers). If a voucher or coupon is inadvertently issued, it should not be used nor transferred to another person but should be destroyed or returned. Team Members may accept other amenities such as complimentary bottled water and HSIA.

Failure to comply with this travel policy may result in the revocation of a Team Member's Hilton Honors account including forfeiture of Points earned.

Note: this policy does not apply to hotels that offer complimentary breakfast (such as Embassy Suites, Hampton Hotels, Homewood Suites and Home2) or an evening reception / meal (such as Embassy Suites and Homewood Suites) to all guests. In situations where one Team Member pays for meals involving several Team Members, such meals shall be recorded within eExpense under Group Meals with the names of the other Team Members included on the traveler's expense report submission.

It is not encouraged to entertain fellow Team Members when all members are in their home location. However, in the event this does occur, the most senior Team Member in attendance must pay for all Group Meals and/or entertainment expenses and include the names of such attendees within his / her expense report.

MOBILE USAGE

All Team Members who have a mobile device paid for by Hilton and have an American Express Corporate Card are required to have their charges billed on their card and process the charges as a normal reimbursable business expense on the online expense-reporting tool.

Team Members who do not have an AECC, should process through the normal out-of-pocket process on the online expense-reporting tool.

Team Members in other countries should refer to the local guidance supplied by the Team Member's Human Resource department.

Team Members making use of multiple Company paid mobile devices may be subject to local tax legislation and the relevant benefit in kind will be reported.

NON-REIMBURSABLE EXPENSES

The following expenses are not reimbursable:

- Personal travel and entertainment
- Airline Club Membership fees
- Airline trip insurance
- Barbershop, salon, spa charges, and shoeshine charges
- Personal telephone charges (including mobile and air phones), except reasonable daily calls to residence
- Personal postage charges
- Theft, damage, or loss of personal luggage or effects
- Clothing
- Gifts (i.e., birthday / holiday gifts to vendors, clients, other Team Members, etc.)
- Donations and political contributions
- Traffic / parking violation fines
- Excessive bar or liquor bills
- Groceries (unless in lieu of a business meal or in accordance with the terms of a contracted live-in arrangement or an employment contract)
- Personal medical expenses
- Personal toiletries
- Personal credit card fees
- ATM Fees
- Baby-sitting services
- Repairs, maintenance, or insurance of personal automobile
- Residential Internet service, unless approved by the Team Member's Department Head
- Kennel fees

OTHER CHARGES / NON-TRAVEL RELATED

The required method of payment for individual expenses, except airline tickets, of over \$5,000 USD (or equivalent), is invoice or direct bill (not your AECC). Significant or recurring abuse may lead to denial of reimbursement and/or loss of AECC charging privileges. For the avoidance of doubt, an expense report in excess of \$5,000 but comprised of multiple items, each less than \$5,000 per unit, may be incurred on the AECC. However, the following examples are items that must be either set-up as a direct bill or invoiced and should not be incurred on the AECC:

- Training Costs (i.e., outside trainings / seminars, internal trainings, materials, etc.)
- Departmental and/or Group / Sales Meetings, Conferences and Trade Shows (i.e., space, transportation, materials, food and beverages, etc.)
- Consumer Electronics (not centrally procured)

Owned and Operated Hotels refer to FP-OPSPIN-143 – Accounts Payable – Ordering and Receiving for guidance on the above-mentioned expenditures.

PASSPORT, VISAS, AND OTHER TRAVEL DOCUMENTS

The costs of acquiring visas or travel documents, plus any necessary medical vaccinations required as part of your approved HWI business travel, are allowable business expenses and should be submitted as such with appropriate receipts. The cost of obtaining or renewing a passport to accommodate international business travel is also a reimbursable business expense.

PERSONAL AUTOMOBILE USAGE

Personal automobiles may be used for business purposes when appropriate. Reimbursement rates will be published as determined by Governmental regulation in the online expense-reporting tool, or on the Business Travel and Expense Resources pages within the Lobby.

Any citations or damage to a Team Member's car while the car is being used for business purposes is the responsibility of the Team Member. Travel between a Team Member's home and usual place of business is not reimbursable.

Reasonable parking and toll charges incurred during business travel are reimbursable. The following information must be submitted to substantiate personal automobile reimbursement:

- Date
- Departure Location / Destination Location
- Miles Incurred
- Business Purpose

RENTAL CARS

Rental cars should be used only when less expensive transportation is not available. The duration of a Team Member's stay in one location and the frequency of car trips required should dictate if a car rental is less expensive than alternative forms of transportation (taxicabs, rail, etc.).

Corporate rate agreements have been negotiated with selected car rental companies (Travel program details can be found on the Lobby). The use of these companies is required in order to achieve the maximum discount rates and insurance coverage.

Senior Vice Presidents and above are authorized to rent full size automobiles. All other Team Members are to rent intermediate or smaller size cars. If three or more passengers will be travelling together in the same automobile, full size cars are permitted.

The cost of automobile rentals for weekend or holiday travel will not be reimbursed unless the car is required for company business during that time.

Collision Damage Waiver (CDW) insurance should not be taken when renting a car for business purposes in the U.S. as Hilton insures for this coverage. In other countries, CDW should be taken and is reimbursable. Personal injury insurance is not reimbursable as Team Members are covered under corporate benefit plans and worker's compensation for personal injuries.

Pre-paid fuel options should not be taken when renting a car for business purposes in the U.S. Team Members should adhere to the terms of the rental car agreement with regard to fuel levels at prior to returning the car to the rental agency, since agency fuel charges are higher than gas station rates.

SPOUSE / PARTNER EXPENSES

Expenses for a spouse / partner accompanying a Team Member on business trips are generally not reimbursable. Exceptions may be made where the Team Member's contract of employment allows for defined travel by spouse or if the spouse's / partner's presence would serve a valid business purpose and if reimbursement is approved **in advance** by the appropriate Senior Vice President. In such instances, expenses for the spouse / partner will be reimbursed as though the spouse / partner were a Team Member.

TAXI CABS AND OTHER GROUND TRANSPORTATION

The cost of a taxicab to and from places of business, hotels and airports is reimbursable. Bus or airport shuttle transportation to and from airports should be used whenever possible. Taxicabs should be paid for with the AECC whenever possible. HWI discourages the use of rideshare application services (i.e. Uber, Lyft, etc.) with non- HWI Team Members.

Rail Travel – Only Vice-Presidents and above may travel “First Class”. All others must travel by standard class or equivalent Acela train travel in the United States is permitted for all Team Members in the lowest class (business class) available.

TIPS / GRATUITIES

Gratuities are reimbursable only when business-related and reasonable. “Reasonable” is defined as an amount that is appropriate for the location and should be commensurate with the service received. Service charges included in the prices or added onto the bill must be taken into consideration. Tips on duty meals at the location where the Team Member is employed and on items of a personal nature are not reimbursable. Live-in Team Members should not include duty meal (i.e., lunch) tips as reimbursable tips. Food and beverage gratuities incurred while traveling should be added to the restaurant check and should not be paid in cash.

For Global tip guidance, please visit the Business Travel and Expense Resources pages within the Lobby.

TRAVEL ADVANCES

Each regional office may establish its own policy with respect to the issuance of travel advances for business travel. Owned and Operated hotels must reference FP- OPSFIN-140 – Expense Control for Manual Expense Reports (section D) for guidance on Travel Advances. Advances should be commensurate with the duration of the trip and with the amount of out-of-pocket expenses the Team Member can be reasonably expected to incur. The Director of Finance / Controller / Finance Manager of the issuing unit is responsible for monitoring the status of outstanding advances and for ensuring that all such advances are accounted for appropriately and in a timely manner.
