SOP NUMBER: SOP-OPSFIN-201

Bank Account Reconciliations

This Standard Operating Procedure provides guidance for the completion of bank account reconciliations and is intended to support FP-OPSFIN-100 Balance Sheet Account Reconciliations.

Applicability

All Owned & Operated Hotels (including Shared Service Centres supporting these hotels).

Exclusions/Exceptions

No exclusions.

Bank Account Reconciliation Guidance

- 1) On a weekly basis, depending on the availability of bank information, cash reconciliations shall be completed and reviewed by the Finance Leader (or equivalent). All reconciling items must be researched, resolved or recorded on a minimum of a weekly basis. Additional focus should be given to any reconciling or timing items over 30 days old.
- 2) Month-end reconciliation is also required as per FP-OPSFIN-100 Balance Sheet Account Reconciliations.

The month end reconciliations should follow the following minimum guidelines:

- a. Bank reconciliations cannot be completed by an individual who is a signatory on the account.
- b. The reconciliation format must be "Bank to Book", i.e., reconciling the general ledger balance to the bank balance.
- c. Include the bank statement or print out from the electronic banking program as supporting documentation to the reconciliation.
- d. Include a list of outstanding checks. All outstanding checks will be voided after 6 months unless restricted per local banking laws. The Finance Leader is responsible to verify that the hotel is compliant with all local unclaimed property mandates.
- e. Amounts which have been posted to the general ledger, but not in the bank account at month-end, need to have supporting documentation attached to the reconciliation.
- f. Amounts on the bank statement, which have not been posted to the general ledger before month-end, need to have supporting documentation attached to the reconciliation.
- g. Evidence of review and approval by the Finance Leader (or equivalent) at month-end.

Cash In-Transit accounts must not be used to balance the bank account to the bank statement. All entries are to be posted to the bank account in the general ledger.
